Claims 1-14 meet the criteria set out in PCT Article 33(2)-(4), because the prior art does not teach or fairly suggest a method of managing an investment of a policyholder which corresponds to a sum assured comprising the steps of selecting at least one predefined index and linking the basic sum assured to the selected index to define a total sum assured, so that the value of the total sum assured increases or decreases with changes in the value of the selected index, and combining the basic index with an additional premium in accordance with the cost of linking the basic sum assured to the selected index in a periodic campsite premium. DiCresce fails to teach the above features and the steps of associating a selected insured amount less than the total sum assured with selected pre-defined future events, and permitting the policyholder to draw from the fund an amount corresponding to the respective insured amount on occurrence of any of the pre-defined future events.
